

God is always been speaking to me

- God has allows to see the end of 2021 and the beginning of 2022
- About the next dimension, the next page of your life
- The plans that he has for us in 2022
- God is showing something about our future in 2022
- There is a declaration that God has made promises that he has given to us.

Who believes in him?

- The ones who got to see the arm of the Lord, revealed the ones who believed his report.

I want to be your spy representative

- Let me step over to the new dimension so that I can come back and say the report.
- I've been over there in a spirit and I came back with a report. And the report is that there is a victory on the other side. Yes, there's gonna be giants, walls, cities, haters, people who don't want to see us make it, but yes I'm gonna tell you that there is a victory on the other side.
- 2022 is gonna be a year of a great victory.
- Victory means that sometimes our prayer, our petition is held up in heavens, that is the essence of spiritual worth, that the enemy does not want us to partake about all that God asks.
- We have to be steadfast and unmoveable and keep on the clearing no matter what we may see challenges. Because we see Victory.

Believing will make us see out of me. That if I believe his report then I see the result of what I believe.

- I want to challenge you to be a believer. Believe the report of the Lord, believe everything that God has said about you. I pray in the name of Jesus that you become a believer and even you don't see it believe it first.
- The downside of not believing God reports it relegate us to having to go around the mountain again.
- You know God has something else for you, you know God has more for you but you let what you see affect your instinct.
- If you believe it, you'll see it.
